FIXED & WIDE-ANGLE LENSES

AS LITTLE AS 48-HR DELIVERY

WHAT YOU GET

Interior & Exterior Coverage

Every angle a listing or marketing package actually needs — lobby, amenities, unit interiors, curb appeal — shot to one consistent standard.

High-Resolution Files

Full-resolution images delivered ready for print, web, and MLS/listing platforms — no upscaling or re-shoots needed later.

Consistent Style Across a Portfolio

The same lighting and editing standard applied whether it's one property or fifty, so a multi-site portfolio looks like one shoot, not twenty different photographers.

Condition Documentation

Timestamped photo sets for asset condition records — before/after renovation, move-in/move-out, or insurance documentation.

HOW IT WORKS

- 01 **The first call.** 20–30 minutes with the team doing the work, not a salesperson.
- 02 **Onsite capture.** Planned around how your building runs. You know who is on site and when.
- 03 **Processing.** Checked before anything goes out. You are not the quality control.
- 04 **Delivery.** Files in the formats you work in, plus a handoff call.

ADD TO THIS SCOPE

Matterport Virtual Tours

Pair still photography with a walkable 3D tour so prospects get both a quick look and a full walkthrough.

Aerial / Drone Mapping

Add an aerial view of the site and surrounding property to round out a listing or marketing package.

As-Built Surveys, Scan-to-CAD & Scan-to-BIM

Need floor plans or measurements to go with the photos? See As-Built Surveys & Scan-to-BIM.

- Your marketing deadline, so delivery is planned around it.
